Subject: Re: Powertech/Azarga Draft Permit for the ISU Dewey/Burdock Project - would you mind providing me with additional info?

Thank you for the response .
I definitely will send you the links of the data, after i go thru all the reports I collected.
I appreciate the info and the link.

Thank you for emailing me your comments on the draft UIC Dewey-Burdock permitting actions. I have added your email to the list of public comments received. I have also added you to my contact list to keep you informed on future EPA actions related to the site.

It would really helpful if you could provide additional information about your statement "There also were tests conducted besides the company that was hired by Powertech, and two of three as it showed did not recommend ISU." Would you mind providing some additional info to me about that? My contact information is provided below, so please either email or call me about that.

Here is the link to the EPA UIC program website that contains all the information in the Administrative Record, in case you do not already have it:

<https://www.epa.gov/uic/administrative-record-dewey-burdock-class-iii-and-class-v-injection-well-draft-area-permits>

The public comment period is in effect through May 19, 2017, in case you have any additional comments after reviewing this information.

Thank you!
Valois

Subject: Powertech/Azarga Draft Permit for the ISU Dewey/Burdock Project

After studying and researching pages and in permitting ISU mining, and knowing how long it has been since the last water testing on wells for the above named project; I am proposing that the water should be retested along with the leaching, etc.

Conditions of groundwater can and do change..

There also were test conducted besides the company that was hired by Powertech, and two of three as it showed did not recommend ISU.

Thank you for

The consideration.
